

COVID-19 ALBERTA HEALTH DAILY CHECKLIST

Overview

This tool has been developed to support schools, activity organizers, employers, businesses and facility operators in reducing the risk of transmission of COVID-19 among attendees/staff. The tool is meant to be used to assist with assessing attendees who may be symptomatic, or who may have been exposed to someone who is ill or has confirmed COVID-19.

Attendees should complete this checklist prior to participating in the activity or program. Children and youth may need a parent to assist them to complete this screening tool.

If an individual answers **YES** to any of the questions, they **must not** be allowed to attend or participate in the activity or program. *Individuals with fever, cough, shortness of breath, runny nose, or sore throat, are required to isolate for 10 days per [CMOH Order 05-2020](#) unless they receive a negative COVID-19 test and are feeling better. Use the [AHS Online Assessment Tool](#) to determine if testing is recommended and follow information on [isolation requirements](#).

As the COVID-19 pandemic continues to evolve, this screening tool will be updated as required.

Screening Questions

	CIRCLE ONE	
1.	Does the attendee have any new onset (or worsening) of any of the following symptoms:	
• Fever*	YES	NO
• Cough*	YES	NO
• Shortness of breath / difficulty breathing*	YES	NO
